E. Kano Mayer, MD, a board-certified, fellowship-trained physical medicine and rehabilitation physician, is a Cleveland Clinic Center for Spine Health staff physician. He specializes in non-operative treatment of spine disorders and sports injuries. Dr. Mayer sees patients at the main campus and Lutheran Hospital.

To schedule an appointment with Dr. Mayer, please call 216.363.2410.

Cleveland Clinic Center for Spine Health brings together the expertise of nationally recognized Cleveland Clinic specialists in orthopaedic surgery, neurosurgery, rehabilitation and rheumatology to offer patients with back and neck problems the latest, most innovative, most effective medical and surgical treatments.

Lutheran Hospital is a 204 bed hospital offering quality medical care, cutting-edge technology, advanced research and surgical care. Lutheran Hospital offers a wide range of specialty services tailored to return you to function. The hospital offers expert care in areas such as spine health, orthopaedics, sports medicine, behavioral health and chronic wound care. The Cleveland Clinic Center for Spine Health at Lutheran Hospital offers a comprehensive spine program including medical and surgical specialists building on knowledge gained through the Cleveland Clinic Spine Research Lab, also located at Lutheran Hospital. The Center seeks to be a national leader in spinal treatment, research and innovation.
